History of MonDaks

Founding Ideals

Create a group that would:

- No cost to members
- Create a community of safety professionals
- Share ideas, information and resources
- Provide educational opportunities
- Be an avenue for communications

**You need good information
to make good decisions**

MONDAKS
SAFETY NETWORK

Mission Statement

MonDaks Safety Network is an Organization for Safety Professionals in the Oil & Gas Industry. We meet monthly to discuss safety issues in the Williston Basin. Our Goal is to increase safety in the region by creating relationship and education opportunities and promoting safety in all segments of industry.

Objective

MonDaks promotes safety, health and environmental improvement in the exploration and production of oil and gas.

Scope

MonDaks includes persons with responsibilities for the safety and health of oil and gas workers in North Dakota, South Dakota and Montana.

Methods

Mondaks will:

- Meet monthly to share and discuss information related to oil and gas EH&S
- Establish focus groups to address specific issues
- Work with others interested in the advancement of worker EH&S

So what have we accomplished?

2013 ND Stand Down

2014 National Stand Down

Increased knowledge of our industry professionals

Created important relationships for our members

Assisted in forming Neutral Grounds meetings

Many others

Going forward

MonDaks will continue being a resource for you!

- Meetings will still be held the 2nd Thursday of each month
- We are looking for a new meeting space?
- We are looking at reinitiating Neutral Grounds
 - With possible expansion?
- Elections!

Questions?

Thank You!
